MAIN CHALLENGES

International

- Finance for Development breaking down inequality
- Ensure the implementation of the gender perspective transversely .
- Global indicators
- Promote new arenas for common targets – UN System in action

LAC Region

- Define regional 2030 Agenda
- Adapting the global indicators
- Strength South-South cooperation on SDG agenda

6

MAIN CHALLENGES

National

- All of the processes have to be a participatory exercise – No One left Behind needs All of us (international and national agreement)
- Define national and regional SDG targets and indicators with a gender perspective: not a silo.
- A new national context under a preestablished institutional framework:
 - Regional Development Plans - corresponsability (**114 out of 169 targets**)
 - Peace Agreements (**50 out of 169 targets**).
