2018 UN-SWAP Performance by Indicator: OAJ

2018 constitutes the first year of reporting against UN-SWAP 2.0, an expanded and enhanced framework with 4 new indicators and 4 strengthened indicators.

As such, the 2018 performance establishes a new benchmark for the years to follow.

In 2018, OAJ "met" or "exceeded" requirements for 10 out of 17 UN-SWAP 2.0 indicators.

Impressively, in 2018, OAJ "exceeded" requirements for:
- The newly strengthened PI5 on Audit
- The newly independent PI12 on Equal Representation of Women

UN Women encourages OAJ to reconsider its "not applicable" rating for PI1 on Strategic Planning Gender-related SDG Results. Entities that do not have a mandate to work on the SDGs are still required to report on high level results related to gender equality, such as equal representation of women.

Comparative Performance 2017-2018, indicators carried over from UN-SWAP 1.0: OAJ

Between 2017 and 2018, OAJ maintained its performance for all 7 indicators that were carried over from UN-SWAP 1.0.
OAJ "met" or "exceeded" requirements for 59% of indicators (10 out of 17 indicators), outperforming the overall UN system, and slightly trailing the progress of the Secretariat as a whole.

Highlights from new UN-SWAP 2.0 Indicators

Leadership (PI7)

This new indicator focuses on ways in which senior managers can directly promote gender equality and the empowerment of women.

OAJ "met" the requirements for this indicator. To "exceed" requirements, Senior managers must proactively promote improvements in UN-SWAP 2.0 Performance Indicators.
