**Comparative Performance 2017-2018, indicators carried over from UN-SWAP 1.0: UNCDF**

2018 constitutes the first year of reporting against UN-SWAP 2.0, an expanded and enhanced framework with 4 new indicators and 4 strengthened indicators.

As such, the 2018 performance establishes a new benchmark for the years to follow.

In 2018, UNCDF "met" requirements for 7 out of 17 UN-SWAP 2.0 indicators.

Between 2017 and 2018, UNCDF declined its performance for 3 of the 7 indicators that were carried over from UN-SWAP 1.0.

In this period, UNCDF reconsidered the applicability of PI9 on Resource Tracking and PI10 on Resource Allocation to its work, altering its rating from "not applicable" to "approaches" and "missing" requirements, respectively.
UNCDF "meets" or "exceeds" requirements for 41% of indicators (7 out of 17 indicators). This is below the average performance of the UN system and Funds and Programmes, currently at 57% and 66%, respectively.
