ECA

Results of UN-SWAP 2.0 Reporting

2018 UN-SWAP Performance by Indicator: ECA

2018 constitutes the first year of reporting against UN-SWAP 2.0, an expanded and enhanced framework with 4 new indicators and 4 strengthened indicators.

As such, the 2018 performance establishes a new benchmark for the years to follow.

In 2018, ECA "met" or "exceeded" requirements for 9 out of 16 relevant UN-SWAP 2.0 indicators*.

Most significant gains

- "Exceeded" requirements for the newly strengthened PI15 on Audit
- "Met" requirements for both the new PI1 on Strategic Planning Gender-related SDG Results; and the new PI2 on Reporting on Gender-related SDG Results

Areas for improvement

UN Women encourages ECA to focus on the 7 indicators that rated as "approaching" requirements.

Comparative Performance 2017-2018, indicators carried over from UN-SWAP 1.0: ECA

Between 2017 and 2018, ECA maintained its performance for 6 out of the 7 indicators that were carried over from UN-SWAP 1.0.

In this period, ECA declined its performance for PI15 on Capacity Development from "meets" to "approaches" requirements.

*For entities where all relevant work on gender equality and the empowerment of women is captured in the main strategic planning document (PI1 Strategic Planning SDG Results), the Performance Indicator 3 "Programmatic SDG Results" will be rated as "Not Applicable". Therefore, the total number of relevant indicator for these entities will be 16, instead of 17.
ECA "met" or "exceeded" requirements for 56% of indicators (9 out of 16 relevant indicators). ECA's progress trails that of the overall UN system and Secretariat entities as a whole.

Notably, ECA did not "miss" requirements for any indicators. In comparison, the overall UN system and the Secretariat entities as a whole "missed" requirements for 8% and 6% of the indicators, respectively.

Highlights from new UN-SWAP 2.0 Indicators

**Strategic Planning Gender-related SDG Results (PI1)**

This new indicator captures high-level results on gender equality and the empowerment of women, as reflected in the main strategic planning documents, which contribute to meeting SDG targets.

ECA "met" the requirements for this indicator. To "exceed" requirements, ECA's main strategic planning document must include a transformative high-level result on gender equality, and demonstrate that this result has been achieved.

**Leadership (PI7)**

This new indicator focuses on ways in which senior managers can directly promote gender equality and the empowerment of women.

ECA "approached" the requirements for this indicator. To "meet" requirements, Senior managers must internally and publicly champion gender equality and the empowerment of women.
