Impressively, in 2018 UNESCO "exceeded" requirements for the new PI2 on Reporting on Gender-related SDG Results.

UN Women encourages UNESCO to focus on the areas that rated as "approaching" requirements:
- PI9 on Financial Resource Tracking
- PI10 on Financial Resource Allocation
- The newly independent PI12 on Equal Representation of Women
- The newly strengthened PI17 on Coherence

Between 2017 and 2018, UNESCO increased its performance for 1 of the 7 indicators that were carried over from UN-SWAP 1.0: PI16 on Knowledge and Communication "meets" to "exceeds" requirements.

In this period, UNESCO declined its performance for PI14 on Capacity Assessment.
UNESCO "met" or "exceeded" requirements for 75% of indicators (12 out of 16 relevant indicators), outperforming both the overall UN system and Specialized entities as a whole.

In addition, UNESCO did not "miss" requirements for any indicators. The Specialized entities and overall UN system "missed" requirements for 4% and 8% of the indicators, respectively.

Highlights from new UN-SWAP 2.0 Indicators

**Strategic Planning Gender-related SDG Results (PI1)**

This new indicator captures high-level results on gender equality and the empowerment of women, as reflected in the main strategic planning documents, which contribute to meeting SDG targets.

UNESCO "met" the requirements for this indicator. To "exceed" requirements, UNESCO's main strategic planning document must include a high-level transformative result on gender equality, and demonstrate that this result has been achieved.

**Leadership (PI7)**

This new indicator focuses on ways in which senior managers can directly promote gender equality and the empowerment of women.

UNESCO "met" the requirements for this indicator. To "exceed" requirements, Senior managers should proactively promote improvements in UN-SWAP 2.0 Performance Indicators.
