Comparative Performance 2017-2018, indicators carried over from UN-SWAP 1.0: UNFPA

*For entities where all relevant work on gender equality and the empowerment of women is captured in the main strategic planning document (PI1 Strategic Planning SDG Results), the Performance Indicator 3 "Programmatic SDG Results" will be rated as "Not Applicable". Therefore, the total number of relevant indicator for these entities will be 16, instead of 17.
UNFPA "met" or "exceeded" requirements for 81% of indicators (13 out of 16 relevant indicators), outperforming both the average performance of the Funds and Programmes and the overall UN system.

In addition, UNFPA did not "miss" requirements for any indicators. In comparison, the Funds and Programmes and the overall UN system "missed" requirements for 5% and 8% of the indicators, respectively.

**Highlights from new UN-SWAP 2.0 Indicators**

**Strategic Planning Gender-related SDG Results (PI1)**

This new indicator captures high-level results on gender equality and the empowerment of women, as reflected in the main strategic planning documents, which contribute to meeting SDG targets.

UNFPA "exceeded" the requirements for this indicator. To maintain this rating, UNFPA's main strategic planning document must include a high-level transformative result on gender equality, and demonstrate that this result has been achieved.

**Leadership (PI7)**

This new indicator focuses on ways in which senior managers can directly promote gender equality and the empowerment of women.

UNFPA "exceeded" the requirements for this indicator. To maintain this rating, senior managers must continue to proactively promote improvements in UN-SWAP 2.0 Performance Indicators.
