2018 UN-SWAP Performance by Indicator: UNOPS

**Most significant gains**

- The newly strengthened PI5 on Audit
- The new PI7 on Leadership

**Areas for improvement**

UN Women encourages UNOPS to reconsider its “not applicable” rating for PI1 on Strategic Planning Gender-related SDG Results. Entities that do not have a mandate to work on the SDGs are still required to report on high level results related to gender equality, such as equal representation of women.

**Comparative Performance 2017-2018, indicators carried over from UN-SWAP 1.0: UNOPS**

Between 2017 and 2018, UNOPS increased its performance for 2 of the 7 indicators that were carried over from UN-SWAP 1.0: PI8 on Performance Management and PI16 on Knowledge and Communication.

However, in this period, UNOPS reconsidered the applicability of PI9 on Financial Resource Tracking.
UNOPS "met" or "exceeded" requirements for 47% of indicators (8 out of 17 indicators) or 73% of relevant indicators (8 out of 11 relevant indicators, excluding not applicable indicators), trailing both the average performance of Funds and Programmes and the overall UN system.

### Highlights from new UN-SWAP 2.0 Indicators

#### Leadership (PI7)

This new indicator focuses on ways in which senior managers can directly promote gender equality and the empowerment of women.

**UNOPS "exceeded" the requirements for this indicator.** To maintain this rating, senior managers must continue to proactively promote improvements in UN-SWAP 2.0 Performance Indicators.
