

# Our partners make the difference

In 2021, UN Women received **USD 556.3 million** in contributions, the third year of successive increases and an all-time record for the organization. Voluntary contributions, comprising regular and other resources, represented 98 per cent of total contributions. The rest came from United Nations assessed contributions.

We are grateful to our **179 funding partners** for their generous contributions, despite a challenging moment for finance. Their support allowed us to continue driving the global agenda for gender equality and women's empowerment. We delivered results with various partners on all parts of our triple mandate strengthening global norms and standards, translating them into real changes for women and girls, and enhancing the coordination and contributions of the broader United Nations system.

Regular (unearmarked) resources, essential for the organization to strategically integrate and achieve its triple mandate, remained at **USD 165.1 million**, approximately the same level as in 2020. Other (earmarked) resources increased by 2 per cent, to **USD 381.2 million**. This brought the ratio of regular to other resources to 30 per cent, just meeting the threshold set by the UN Funding Compact.

We sincerely thank our funding partners for their demonstrated confidence in UN Women. We would like to recognize specifically, **France, India, Ireland, Luxembourg, Norway and the United States of America** for their increased contributions to regular resources. We also recognize our top five funding partners: **the European Commission, Finland, the Multi-Partner Trust Fund Office, Norway and Sweden**. We appreciate as well our top five private sector partners: **Alipay Foundation, BHP Billiton Foundation, the Bill & Melinda Gates Foundation, De Beers PLC and the Iceland National Committee**.

Over the last four years, UN Women has established an increasingly efficient, effective and accountable corporate architecture built on strong business processes. In 2021, we received our tenth consecutive audit opinion and implemented all prior recommendations, a significant achievement. Despite the pressures of COVID-19, robust business continuity plans and risk mitigation actions have kept overall performance strong, warranting continued trust and confidence.

As we embark on our new **Strategic Plan 2022-2025**, we continue to rely on our partners to provide flexible and predictable resources to support our global efforts to deliver concrete progress on gender equality and empowerment in the lives of women and girls and towards the realization of the Sustainable Development Goals for all.

### NOTES:

These statements have been prepared on an accrual basis, in accordance with International Public Sector Accounting Standards (IPSAS). For Financial Statements, revenue is recognized, for the most part, in the year in which the agreement is signed (including all multi-year agreements).

Assessed contributions are issued as an annual allotment from the United Nations regular budget, and are assessed and approved for a two-year budget period. The amount of these contributions is then apportioned between the two years.
