UN-SWAP 2.0 PERFORMANCE 2021

The following two pages capture WHO's performance on UN-SWAP 2.0 indicators for 2021.

In 2021, WHO met or exceeded the requirements for 7 performance indicators out of 16 applicable.

UN-SWAP 2.0 PERFORMANCE BY INDICATOR (2020-2021)

PERFORMANCE HIGHLIGHTS IN 2021

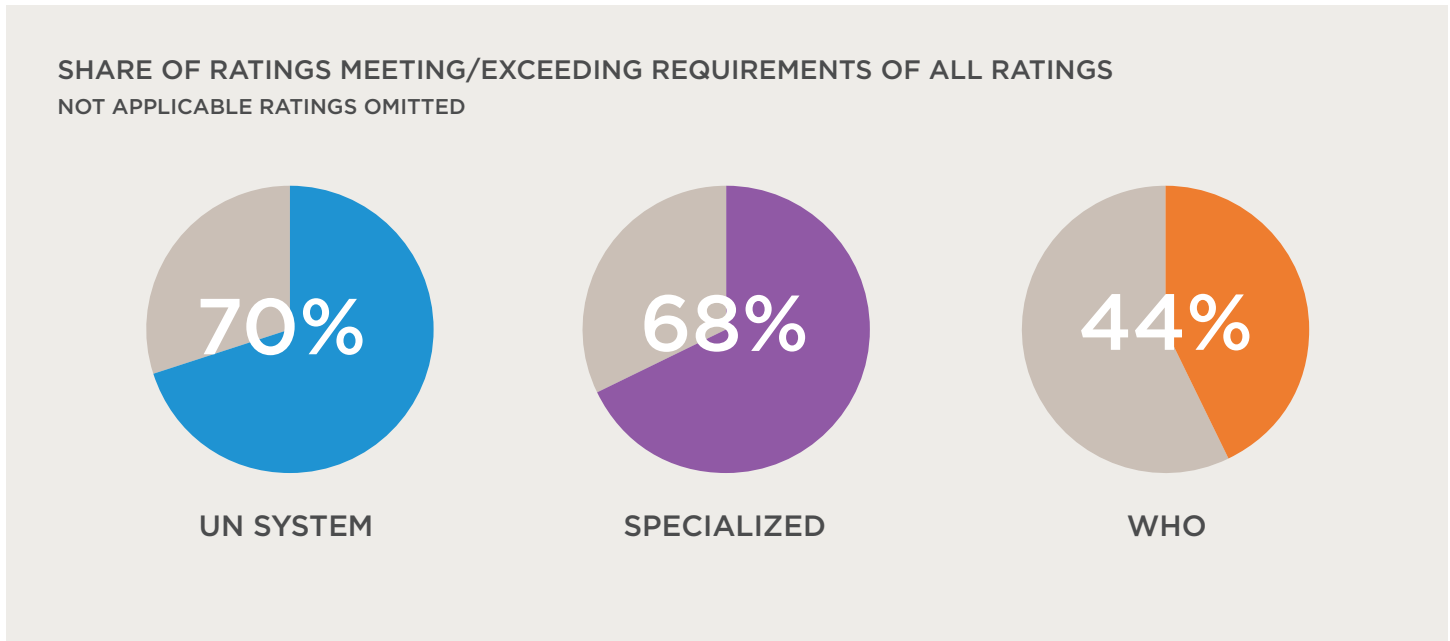

Most significant gains

- In 2021, WHO exceeded requirements for two indicators and met them for another five indicators.
- Significantly, WHO newly exceeded the requirements in the area of evaluation, and maintained compliance for five indicators.

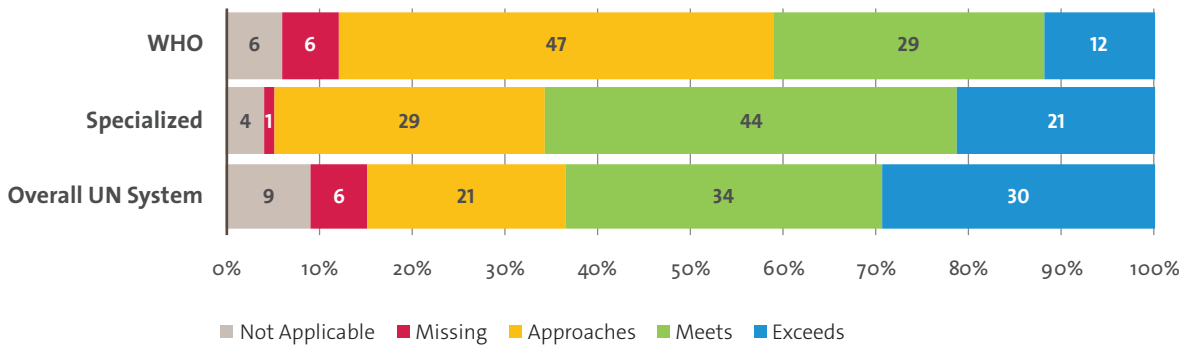

Areas for improvement

- UN Women encourages WHO to prioritize the only indicator rated as missing, Capacity assessment, as well as the seven indicators approaching requirements to increase compliance during the current UN-SWAP implementation period.
- Particularly, UN Women encourages focused efforts to update the Gender equality policy, a key driver for overall progress.

COMPARATIVE ANALYSIS FOR WHO

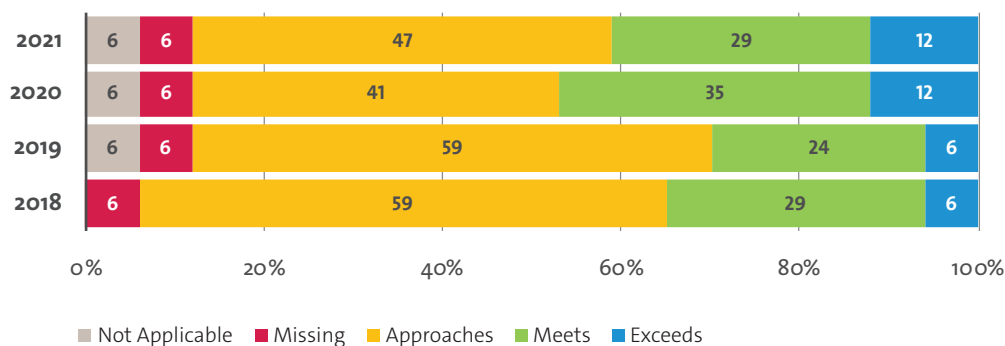

COMPARISON WITH SPECIALIZED ENTITIES AND THE OVERALL UN SYSTEM

In 2021, WHO trailed the combined results of the Specialized entities and of the UN system as a whole.

WHO met or exceeded requirements for less indicators than similar entities and the overall UN system.

WHO, COMPARATIVE ANALYSIS OF RATINGS BY YEAR

In 2021, WHO met or exceeded requirements for one less indicator than in 2020.

Targeted efforts are required to improve performance against the remaining applicable indicators that missed or approached requirements in 2021.
