WOMAN is a worldwide project giving voice to 2000 women in 50 different countries.

Based on first person encounters, the film is an attempt to understand women's lives and to measure how far they have come and how far they still have to go. Dealing with such topics as motherhood, education, marriage or financial independence but also menstruations or the relationship women have with their body, WOMAN will make you discover the voice of women as you have never heard it before.
