**Item 2**  
**Financial, budgetary and administrative matters**

The Executive Board will consider the integrated budget estimates for the biennium 2016-2017. The budget is the financial plan that allows the organization to have the financial and institutional capacity to achieve the results of its strategic plan, 2014-2017, and covers all cost categories and funding sources, both regular and other resources, within a single, consolidated proposal.

The integrated budget for the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) is grounded in results-based management principles and aligned with the integrated results framework of its strategic plan, 2014-2017. In order to deliver on the integrated results framework, UN-Women will continue to engage Member States and other partners, in particular to increase regular resources, the bedrock of its activities, as underscored in the quadrennial comprehensive policy review.

**Item 3**  
**Evaluation**

The Executive Board will be presented with two reports on the findings of two evaluations and related recommendations and the subsequent management responses, as well as a review that does not require a management response.

The first report contains a meta-analysis of evaluations conducted in 2014. It is the second synthesis of UN-Women evaluations, which in 2015 focuses on learning. The analysis considers the evaluation insights on programming and organizational performance based on the selected United Nations Evaluation Group evaluation criteria of (a) relevance, (b) effectiveness, (c) efficiency, and (d) sustainability.

The second report contains the independent assessment conducted by the Inspection and Evaluation Division of the Office of Internal Oversight Services to determine as systematically and objectively as possible the relevance of UN-Women and its effectiveness in achieving its mandate through normative support work and the linkage of such work to operational activities. The findings and recommendations will be used to enhance the work of UN-Women in those areas. In an effort to avoid duplication of efforts, the independent Evaluation Office of UN-Women presents the report in lieu of its own planned evaluation.

The third report contains a review undertaken by UN-Women in consultation with the United Nations Evaluation Group and EvalPartners. The review focuses on existing evaluations of corporate gender equality policies in the United Nations system and data captured through validated learning on gender mainstreaming

undertaken prior to the implementation of the System-wide Action Plan on Gender Equality and the Empowerment of Women. The insights are expected to be used by United Nations entities to enhance gender equality policies, improve performance against the framework of the System-wide Action Plan and improve corporate gender equality evaluation practices.

##### **Structured dialogue on financing**

The strategic brief on resource mobilization, prepared in response to Executive Board decision 2014/6, is part of a structured dialogue on financing the UN-Women strategic plan, 2014-2017, to be held in the context of the consideration by the General Assembly of the quadrennial comprehensive policy review of operational activities for development of the United Nations system, pursuant to resolution 67/226.

The brief highlights the resources necessary for the full implementation of the strategic plan and to achieve transformational results for women and girls worldwide. It outlines some of the risks of not achieving adequate funding, as well as steps that UN-Women has taken to reach this critical mass by mobilizing regular and other resources. Key strategies detailed in the brief include increasing and sustaining core contributions from current government donors, emerging donors and the private sector and strengthening and diversifying current sources of non-core resources based on UN-Women flagship programming initiatives and dedicated funding mechanisms.

The Executive Board may wish to take note of the brief on resource mobilization as an element of the Entity's ongoing structured dialogue on the financing of its strategic plan, and encourage a continued dialogue with Member States on the predictability, flexibility and alignment of resources provided for the implementation of the strategic plan, including on funding gaps.
