

WORLD HEALTH ORGANIZATION (WHO)

UN-SWAP 2.0 PERFORMANCE 2019

The following two pages capture WHO's performance on UN-SWAP 2.0 indicators for 2019.

In 2019, WHO met or exceeded the requirements for 5 performance indicators out of 16 applicable, on par with their 2018 results.

UN-SWAP 2.0 PERFORMANCE BY INDICATOR (2018-2019)

PERFORMANCE HIGHLIGHTS IN 2019

Most significant gains

- Commendably, WHO continues to maintain its strong performance on the indicator on Policy.

Areas for improvement

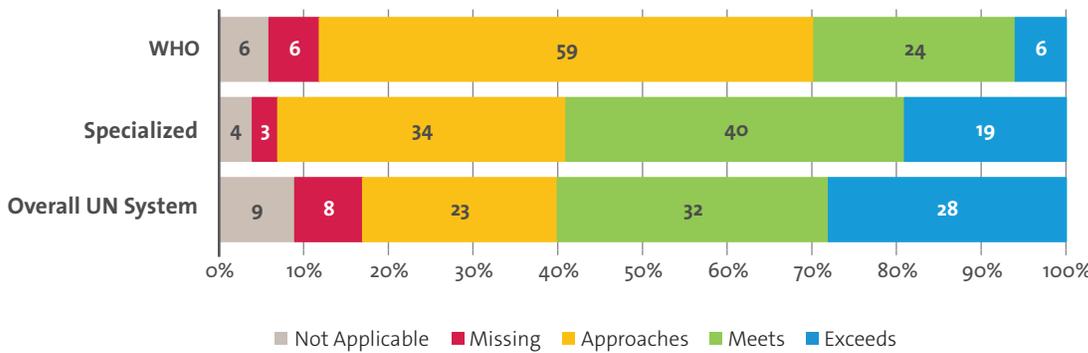

- UN Women recommends prioritizing Capacity Assessment, which is now missing requirements, as well as the 10 indicators marked as approaching requirements, and reassessing the applicability of Programmatic Gender-Related SDG Results not Directly Captured in the Strategic Plan.
- In particular, UN Women highlights the importance of Leadership, Financial Resource Tracking and Allocation, Gender Architecture and the Equal Representation of Women.

COMPARATIVE ANALYSIS FOR WHO

SHARE OF RATINGS MEETING/EXCEEDING REQUIREMENTS OF ALL RATINGS
NOT APPLICABLE RATINGS OMITTED

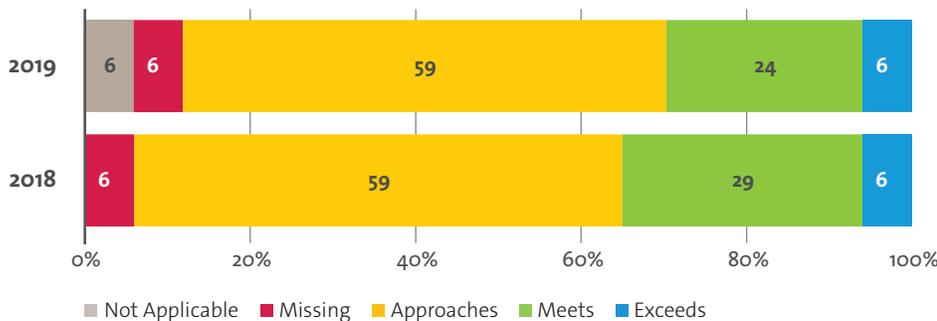

COMPARISON WITH THE SPECIALIZED ENTITIES AND THE OVERALL UN SYSTEM
NOT APPLICABLE RATINGS INCLUDED

- In 2019, WHO met or exceeded requirements for fewer indicators than both the averages of the Specialized entities and the UN System at large.
- At 59 per cent, most indicators are approaching requirements, compared with 34 per cent and 23 per cent for the Specialized entities and the overall UN System, respectively.

WHO, COMPARATIVE ANALYSIS OF RATINGS BY YEAR

- While performance has generally remained unchanged between 2018 and 2019, there has been a decrease in one indicator from meeting to approaching requirements.
- For the first time, WHO has not reported on one indicator, which is marked as not applicable.
