

WORLD HEALTH ORGANIZATION (WHO)

UN-SWAP 2.0 PERFORMANCE 2020

The following three pages capture WHO's performance on UN-SWAP 2.0 indicators for 2020.

In 2020, WHO met or exceeded the requirements for 8 performance indicators out of 16 applicable.

UN-SWAP 2.0 PERFORMANCE BY INDICATOR (2019-2020)

PERFORMANCE HIGHLIGHTS IN 2020

Most significant gains

- In 2020, WHO exceeded requirements for two indicators and met them for another six.
- Significantly, WHO has improved performance on four indicators: Leadership, Organizational culture, Knowledge and communication and Coherence.

Areas for improvement

- UN Women encourages WHO to prioritize the only indicator rated as missing, Capacity assessment, as well as the seven indicators approaching requirements.
- UN Women also recommends focusing on Policy, a key driver for overall progress and which has decreased in performance to approach requirements for WHO.

COMPARATIVE ANALYSIS FOR WHO

COMPARISON WITH SPECIALIZED ENTITIES AND THE OVERALL UN SYSTEM

- In 2020, WHO exceeded less indicators than the average for Specialized entities and the UN System as a whole and met as many indicators as the overall UN System but less so than the average for Specialized entities.

WHO, COMPARATIVE ANALYSIS OF RATINGS BY YEAR

- In 2020, WHO met or exceeded requirements for 47 per cent of the indicators, registering a 17-percentage point increase in comparison to 2019.
- 41 per cent of indicators remain approaching requirements, thereby creating promising opportunities for progress in the coming cycle.
