Annex 1: UN-SWAP 2.0 and Secretariat entities with a mainly administrative function

The purpose of this Annex is to clarify UN-SWAP 2.0 reporting requirements per Performance Indicator for Secretariat entities which have a mainly administrative function. It refers to DGACM, DMSPC, DOS, DSS, OAJ, OLA, UNOG, UNOMS, UNON and UNOV. Guidance for Performance Indicators 1 and 3 can also be applicable to training and research institutes, as appropriate.

The UN-SWAP was developed in close consultation with the Secretariat, including the Office of Programme Planning, Finance and Budget, and guidance on UN-SWAP reporting has been revised to take into account changes in the Secretariat programme budget. Please note that the current UN Secretariat Programme planning manual for PPB2025 recommends mainstreaming gender equality and empowerment of women (GEEW) in two ways, as appropriate:

- Showcase in the strategy, by providing programme specific information on activities, policies and strategies derived/in line with the UN SWAP 2.0
- Showcase in the results
  - Results and performance measures which contribute to GEEW
  - Performance measures which include indicators specific for measuring progress for GEEW

The UN-SWAP has attempted to account for the varied nature of the UN system by revising its guidance to ensure that it is appropriate for all entities. Secretariat entities with a mainly administrative function have specific functions in relation to the promotion of gender equality and the empowerment of women, and it is important that UN-SWAP reporting captures the full range of Secretariat achievements.

I. Gender-related SDG Results

A. Results-based Management

01. Performance Indicator: Strategic Planning Gender-related SDG results

UN-SWAP Performance Indicators 1 and 2 focus on entities that include, achieve and report on at least one high-level result on gender equality and the empowerment of women, tied to the SDGs, in their main strategic planning document. The focus of these indicators is on normative and development/humanitarian results, and they may be not applicable for some Secretariat entities with a mainly administrative function, or training and research institutes. If that is the case, they should report these indicators as “not applicable”.

02. Performance Indicator: Reporting on Gender-related SDG results

Entities should report “not applicable”, if they do not report on at least one high-level result on gender equality and the empowerment of women, tied to the SDGs, in their main strategic planning document, as explained above.

03. Performance Indicator: Gender-related results not captured elsewhere in UN-SWAP reporting

Entities with a mainly administrative function and training and research institutes should report on gender-related results not reported on elsewhere in the UN-SWAP, under Performance Indicator 3, the title of which has been adapted for these entities to: “Gender-related results not captured elsewhere in UN-SWAP reporting.”

Examples of these results are: organizing panels which focus on gender mainstreaming; ensuring equal representation of women as arbitrators, lecturers, in panels and working groups; gender balance in selection of consultants; discussions with Member States concerning gender mainstreaming; increasing women’s participation, e.g. in peace initiatives; and engaging women owned businesses in procurement.

Please note that reporting under this Indicator should not include areas covered by other Performance Indicators. For example, gender parity is covered by indicators 6 and 12, leadership...
by indicator 7, organizational culture by indicator 13, and capacity development by indicator 15. Any reporting under indicator 3 should therefore be over and above reporting on these other indicators.

To report on indicator 3, entities should outline the main gender-related results they intended to achieve and rate their performance against the following table:

| Gender-related results not captured elsewhere in UN-SWAP reporting |
|-----------------------|----------------------|
| **Approaches**        | **Meets**            | **Exceeds**         |
| Entity has not achieved results as planned | Results are met as planned | Planned results are exceeded |

B. Oversight

**04. Performance Indicator: Evaluation**

Entities with a mainly administrative function do not for the most part carry out evaluations. Where evaluations are carried out, they should meet the requirements set out for this Performance Indicator. Self-evaluations should be assessed against the guidance for this type of evaluations provided by OIOS/UNEG. If evaluations are not carried out the rating for this indicator should be “not applicable”.

**05. Performance Indicator: Audit**

Audit is a centralized function in the Secretariat and entities should report according to the data provided by OIOS. UN Women will share the OIOS input with all UN-SWAP Focal Points in the Secretariat before the reporting deadline.

II. Institutional Strengthening to Support Achievement of Results

C. Accountability

**06. Performance Indicator: Policy**

Entities should report on their gender parity implementation plans. To meet requirements, entities should have a gender parity implementation plan in place. To exceed requirements, entities should additionally have a senior management accountability mechanism in place. Reference to gender equality and the empowerment of women in senior manager compacts is acceptable to exceed requirements.

**07. Performance Indicator: Leadership**

Entities should report as per the Technical Guidance.

**08. Gender-responsive Performance Management**

Performance management is a centralized function in the Secretariat and entities should report according to the data provided by DMSPC. UN Women will share the DMSPC input with all UN-SWAP Focal Points in the Secretariat before the reporting deadline.

D. Human and Financial Resources

As the gender equality marker system is mandatory for projects funded by extra-budgetary sources through the UMOJA IPMR (Integrated Planning, Management and Reporting), UN Secretariat entities should report “not applicable” only if they do not have XB-funded projects.

Secretariat entities with a mainly administrative focus should report “not applicable” for this Performance Indicator, until the configuration of this system is finalised, and financial allocations can be tracked for all budget sources – except if extra-budgetary sources provide for more than 20 per cent of their funding. Entities which have more than 20 per cent of their funding made up from Extra-budgetary funding should develop a resource allocation system specific to these resources.

11. Performance Indicator: Gender Architecture

Entities should report as per the Technical Guidance.

*The criteria applied to small entities to meet requirements also apply to administrative entities.

12. Performance Indicator: Equal Representation of Women

Entities should report as per the Technical Guidance.

13. Performance Indicator: Organisational Culture

Entities should report as per the Technical Guidance.

**E. Capacity**

14. Performance Indicator: Capacity Assessment

Entities should report as per the Technical Guidance.

15. Performance Indicator: Capacity Development

Entities should report as per the Technical Guidance.

**F. Knowledge, Communication and Coherence**

16. Performance Indicator: Knowledge and Communication

Entities should report as per the Technical Guidance.

17. Performance Indicator: Coherence

Entities should report as per the Technical Guidance.
Annex 2: Glossary

Gender Mainstreaming

Mainstreaming a gender perspective is the process of assessing the implications for women and men of any planned action, including legislation, policies or programmes, in all areas and at all levels. It is a strategy for making women's as well as men's concerns and experiences an integral dimension of the design, implementation, monitoring and evaluation of policies and programmes in all political, economic and societal spheres so that women and men benefit equally and inequality is not perpetuated. The ultimate goal is to achieve gender equality. Source: [ECOSOC agreed conclusions 1997/2](http://www.un.org/womenwatch/osagi/conceptsandefinitions.htm)

Equal Representation of Women

The goal of gender balance / gender parity / the equal representation of women and men applies throughout the United Nations system, and in every department, office or regional commission, overall and at each level. Gender parity applies to all posts, without regard to the type or duration of the appointment, the series of Staff Rules under which the appointment is made, or the source of funding.

Gender Equality – Equality Between Women and Men

“Gender equality” refers to the equal rights, responsibilities and opportunities of women and men and girls and boys. Equality does not mean that women and men are the same but that women’s and men’s rights, responsibilities and opportunities do not depend on whether they are born male or female. Gender equality implies that the interests, needs and priorities of both women and men are taken into consideration, recognizing the diversity of different groups of women and men. Gender equality is not a women's issue but concerns all men, women, girls and boys. Equality between women and men is both a human rights issue and a precondition for, and indicator of, sustainable people-centred development.

Gender

“Gender” refers to the social attributes and opportunities associated with being male and female, and the associated relationships between women, men, girls and boys. The attributes, opportunities and relationships assigned to women and men, girls and boys, are socially constructed and are learned; they are context and time-specific, and thus subject to change. In most societies there are differences and inequalities between women and men in responsibilities assigned, activities undertaken, access to and control over resources and decision-making opportunities.

Annex 4: UN-SWAP Performance Indicator Business Owner Network: Terms of Reference

The UN system-wide Action Plan (UN-SWAP) is a UN system-wide accountability framework designed to measure, monitor and drive progress towards gender equality and the empowerment of women across the UN system. It was endorsed by the United Nations Chief Executives Board for Coordination (CEB) in 2012.

Results are reported annually by entities and analysed in the Secretary-General’s report on mainstreaming a gender perspective into all policies and programmes in the UN system.

Reference to UN-SWAP-related commitments in entity gender equality policy, for instance:

1. Active participation in UN-SWAP technical working groups convened by UN Women.
2. Preparation of annual UN-SWAP reporting with enhanced internal quality assurance.
3. Identification of at least one UN-SWAP performance indicator per annum on which the entity will make progress.
4. The entity will make its UN-SWAP reporting available to all staff and post it on its website.

UN-SWAP 2.0 comprises 17 Performance Indicators (PIs), as outlined in the technical guidance.

Objectives:

Members of the UN-SWAP network provide inputs to the annual UN-SWAP report and recommend to senior management strategic interventions to increase the entity’s rating of at least one Performance Indicator per year.

Through the UN-SWAP network, exchange among its members is facilitated. Members of the network participate in UN-SWAP technical working groups related to their area of expertise and share information with other members.

The network will conduct internal quality assurance by regularly assessing the accuracy of all indicator ratings according to the UN-SWAP 2.0 technical guidance issued by UN Women. These ratings will be critically reviewed and appropriately supported by evidence.

As an additional layer of quality assurance, the main UN-SWAP focal point/coordinator will collate and consolidate all information and will first submit the annual report to the Head of entity for approval before finalizing the annual submission to the UN-SWAP 2.0 self-reporting system.

Composition, roles and responsibilities:

Membership in the UN-SWAP network mirrors the technical areas related to the 17 Performance Indicators of the UN-SWAP 2.0 framework. Members of the network (usually referred to as Business Owners) are designated by the relevant Department Directors and are confirmed on annual basis by Department Directors as a part of the UN-SWAP reporting exercise. Members are responsible for providing technical inputs to the annual UN-SWAP reporting. As needed, the network will draw on additional internal and external technical expertise.

The network is coordinated by the main UN-SWAP focal point/coordinator designated by senior management.
