

## RESULTS

# FINLAND: TOGETHER WE CAN

## Finland's prioritization of regular resources to UN Women contributed to...

UN Women continued efforts to strengthen the integration

of gender perspectives in intergovernmental processes and bodies, although COVID-19 impacts required significant adjustments, including to ensure business continuity.

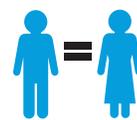

More than 6,800 women political aspirants increased leader-

ship and campaigning skills. They included over 700 indigenous and Afro-descendant candidates in Brazil trained on information and communications technology (ICT) and social media campaigning.

In 2020, UN Women supported 114,243 women in 33

countries to strengthen technical, digital and financial skills and capacities to participate in the economy, including as entrepreneurs (69,332 from rural areas, 1,426 migrant women and 393 women with disabilities).

From 2011 to 2020, Finland has provided

USD 133.5 million to UN Women's regular resources contributing to, among several actions, normative engagement with and within Member States to create, update and implement legislation which is gender equal.

## Finland's support to specific programmes resulted in...

Training of female military officers in preparation for their deployment

on UN Peacekeeping Operations. This is a significant part of the support for UN Women's work to increase women's leadership in peace, security and humanitarian response.

In Tanzania, a gender policy analysis of laws debated in Parliament

was undertaken by women's caucuses in the Parliament, leading to the enhanced capacity of women parliamentarians to advocate for gender quality and women's rights in legislation. This resulted in five laws having greater gender mainstreaming.

A desk review of 20 national

legislative systems in Jordan, has been used to develop evidence-based tools for advocacy and policy dialogue in support of the Syrian refugees now in Jordan.

Other resources of USD 61.7 million have allowed UN Women to

strategically focus on humanitarian action, women's political leadership and participation, peace and security, and women's economic empowerment.

*Photo: Celebrating the #WomenInScience, UN Women Regional Office for the Arab States and UNESCO organized a workshop for girls and young women aged 12 to 30 years old to learn to code and how to construct robots during the SHECAN event. The robotics and coding initiative aims to inspire and engage girls and young women around science, technology, engineering and mathematics (STEM) and raise their interest in possible careers in emerging technology fields. The workshop focused on the hands-on interaction and assembly of robotics kits and introduction to coding/programming to allow participants to control their creations. Photo: UN Women/Emad Karim*

## Selection of Programmes Funded by Finland

SDGs	Country	Years	Contribution (EUR million)	Impact Areas and Programme Descriptions
	<b>LEBANON</b> <b>TUNISIA</b> <b>IRAQ</b> <b>JORDAN</b>	2015-2021	7.1	<b>PEACE &amp; SECURITY, AND HUMANITARIAN ACTION</b> Supporting the development and implementation of National Action Plans (NAPs) on UNSCR 1325 on Women, Peace and Security, working to ensure that ministries across the Arab states region are implementing NAP programmes to address the needs and priorities of women and girls affected by conflict.
