Japan's prioritization of regular resources funding to UN Women contributed to...

 Gender equality advocates influencing economic policies and poverty reduction strategies in 12 countries with a combined female population of over 200 million.

 The adaption or amendment of 72 laws to strengthen women's rights in 61 countries, with a combined population of nearly 1.6 billion women and girls.

 More than 742,000 women and girls benefited from humanitarian services.

 Since 2011, Japan has provided **USD 31.5 million** to UN Women's regular resources contributing to, among several actions, normative engagement with and within Member States to create, update and implement legislation which is gender equal.

Japan's support to specific programmes resulted in...

 Women in Kenya actively participating in efforts to prevent and respond to extremist violence in their country, while ensuring their human rights are protected and promoted.

 Women in Cambodia, Laos, Myanmar, Thailand and Viet Nam benefited from the delivery of timely and effective interventions to mitigate the impact of trafficking, break its links to terrorism and violent extremism, and prevent escalation of criminal activities.

 The promotion of self-reliance and social cohesion for displaced Iraqi and Syrian women and their Iraqi and Jordanian host communities, in areas affected by the ongoing conflicts.

 Other resources of **USD 102.8 million** have allowed UN Women to strategically focus on peace and security, humanitarian action, women's political leadership and participation, and women's economic empowerment.
